

THE EVENING NEWS

DEVOTED TO MAKING ADA A LARGER AND MORE PROGRESSIVE CITY

VOLUME 7

ADA, OKLAHOMA, THURSDAY EVENING, OCTOBER 6, 1910.

NUMBER 156.

This Idea of Real Service to the Public is one which we are steadily cultivating in our business

Not simply selling merchandise; not simply "waiting on you" when you buy, but more than that, serving you with the very best line of clothing to be had, Hart, Schaffner & Marx.

You may expect to find here the richest array of new fabrics you've ever seen in men's and youths' clothing. College men and young men are usually the critical buyers of these goods and this is the reason why Hart, Schaffner & Marx are so popular with the public.

The fall line consists of the new London browns, superb grays and various other shades. They are made with the perfect fitting shoulders, the snug fitting collar and the perfect hanging front made by

HART, SCHAFFNER & MARX PERFECT FITTING CLOTHES

The prices are no higher than others, \$20 to \$35

From \$10.00 to \$18.50 we handle the next best line of clothing to be had,

Spero Michaels & Sons of New York

which is the nobbiest and most up-to-date line "in its prices" in the country

These Lines are Now Open for Inspection at

KING DRIVEN FROM THRONE

PORTUGUESE REVOLUTION SUCCESSFUL—REPUBLIC PROCLAIMED.

Lisbon, Oct. 6.—The yacht Amelie has put out to sea with the Duke of Oporto, infant Alfonso, who embarked at Cassaca. It is believed the yacht is going to take aboard other members of the royal family.

The capital is now completely in the hands of the republicans, who have formed a provisional government, with Theophile Braga as president.

The new national flag of red and green is flying over all the public buildings, including the town hall.

King Manuel, with the queen mother, Amelie, and his grandmother, the queen dowager Maria Pia, has taken refuge at Mafra, 25 miles from Lisbon.

Already the Spanish minister in full uniform, has called to pay his respects to the republican leaders.

It is impossible to estimate the number of those killed or wounded

in yesterday's fighting, but it is expected to reach several hundred. The city has been considerably damaged by the bombardment of the insurgent warships. The buildings occupied by the ministers around the Praça do Comercio, and the Necessidades palace were made the particular targets of the shells from the warships, and today show the effects by broken walls and turrets. The tower of the church attached to the palace was demolished.

Thus far, however, no attack has been made upon private property, and it is reported that the banks are being guarded by blue-jackets.

No news has been received from the provinces, as communication has largely been cut off and dispatches and messages of all kinds have been suppressed.

MASS MEETING TO-MORROW NIGHT

A meeting of the citizens of Ada is hereby called for tomorrow (Friday) evening at 8 o'clock at the 25,000 Club rooms to consider the Byrd's Mill water proposition. This is the most important matters that has ever come before the citizens of Ada, and a full attendance is urged.

E. H. LUCAS, Pres. 25,000 Club.

TENNESSEE DEMOCRATS HOLDING CONVENTION

WANT BOB TAYLOR TO MAKE
THE RACE FOR GOV.
ERNOR.

Nashville, Tenn., Oct. 5.—The state convention of regular, or harmony, democrats, which meets here tomorrow for the purpose of nominating a candidate for governor and a candidate for state railroad commissioner for West Tennessee promises tonight to be well attended. Large delegates have been appointed from various counties, mainly composed of former followers of Gov. M. R. Patterson, with a few independents, but the attendance is expected to come largely from counties contiguous to Nashville.

Memphis, Chattanooga and Knoxville, however, will be well represented. Many of the leaders have been in Nashville since last night and conferences are continuous. The dissolutions have all been over the candidates for governor and the platform. It appears to be the general opinion that United States Senator Robert L. Taylor will be the nominee, although he is said to be anxious to have the nomination conferred upon some other man. Judge Joseph E. Jones, who tried the Reelfoot Lake night-riding cases; state Senator John Randolph Neal, who supported Gov. Patterson in the last legislature, but voted for the prohibition law; Judge M. M. Allison of Chattanooga, heretofore allied with the independent faction, are talked of for governor.

The convention will be called to order, it is reported tonight by Mayor William O. Vertrees, who was chairman of the independent state committee until the independents endorsed B. W. Hooper (rep.) for governor, while Joe V. Williams, permanent chairman of the convention which nominated the anti-Patterson judicial candidates in May, will be temporary chairman.

All day the leaders have been at work on the platform. The only question apparently was the declaration relative to the prohibition laws. It is reported the platform will declare for local option, either county unit or city unit, and the repeal of the law which prohibits distilling and brewing of intoxicants.

S. W. Allen was up from Roff yesterday.

RAILROADS APPEAL TO SUPREME COURT

CORPORATION COMMISSION INSISTS ON FIXING PHYSICAL VALUATION.

WHO HAS JURISDICTION?

Contention Is That Roads Are Not Entitled to Suspending Bond.

Guthrie, Oct. 4.—The Santa Fe and other railroads doing business in the state have appealed to the supreme court from the action of the corporation commission in refusing to grant supercedas bond in Order 367, in which the commission ordered all steam and electric railways in the state to file with the commission alignment maps the location of right-of-way and station grounds and all other statistics and figures necessary to enable the commission to make a physical valuation of the roads.

The Santa Fe sought to appeal from the order to the supreme court and the corporation commission refused to allow the road to make a supercedas bond holding that the road has not right of appeal to the supreme court from an order of this kind and that the decision of the commission is final.

The commission contends that under the constitution the railroads can only appeal from orders of the corporation commission, prescribing rates, charges or classification of traffic, or from orders refusing to approve suspending bonds for requiring additional security, and that the physical valuation order falls purely within the police and ministerial powers of the commission in the form of delegated legislative power granted by the constitution to the commission.

Attorneys for the railroads filed and argued their appeal from the order of the commission refusing to grant a suspending bond in this order. The corporation commission filed a counter motion to dismiss on the ground that the supreme court has no jurisdiction over such an appeal and the legal struggle between the railroads and the commission is now on. Both sides have been given ten days to file briefs in the court touching the question of jurisdiction and the right of the roads to appeal.

FIRE COMPANY SAVED THE HOUSE

About 8 o'clock last evening fire was discovered in the house on 12th street just back of the Chapman hotel. When the fire company arrived flames were lapping out through the west window of the northwest room, but in a very few minutes the fire was extinguished. Everything in that room was charred so badly that it was totally ruined and the walls were burned almost through. Not a great deal of damage was done to the other rooms by the fire, although some things suffered from the water.

The fire is supposed to have started from a smoke to drive out mosquitoes. Mrs. Brittain and her mother, Mrs. Harris, started a small smoke and while it was still smoldering, went over to the hotel a few minutes. It is thought that the high wind blew a spark into a bed chest at hand and from that the flames spread.

The house is the property of S. I. Tobias.

PLENTY OF CASH IN STATE TREASURY

Guthrie, Okla., Oct. 5.—An examination of the books and records of the office of State Treasurer Menefee by State Examiner and Inspector Taylor shows that there was \$1,423,338.30 in cash in the several funds October 1. Of this amount \$539,211 is in the general revenue fund, out of which money for taking up state warrants is available. The last call for

state warrants was on August 1, when there was about \$750,000 in the fund and it is expected that another call will be made soon.

On October 1, 119 banks were carrying state funds, the largest amount to a bank being slightly in excess of \$50,000. Last year several banks carried more than this amount, among them the Columbia Bank and Trust company of Oklahoma City, which had \$170,000 on deposit. The six banks leading in state deposits are: Commerce Trust company of Kansas City, \$56,615; Union National bank of Bartlesville, \$41,817; Central Reserve bank of Oklahoma City, \$35,239; Bank of Enid, \$30,502; Guthrie National bank, \$28,234; Anadarko State bank, \$23,629.

Shawnee Paper in Hands of Receiver.

The Shawnee Herald has fallen into the hard lines once more and has been placed in the hands of a receiver by the court. The Herald is a good paper and we hope its embarrassment is only temporary.

When Your Tailor?

THOSE particular men who prefer exclusive wool patterns and individuality of style and appearance will be pleased to learn that we are now showing the magnificent Fall line of

We make the drug business our daily study—for it requires constant attention to properly conduct the varied and intricate details of a large drug business. Try us today.

GWIN & MAYS CO.

BYRD'S MILL WATER SUPPLY

Chief Engineer of Kansas City Water Works Visits the Big Spring and Makes Estimates.

Mr. Wm. G. Goodwin, superintendent of the water works of Kansas City, Mo., together with Adam L. Beck, president of the Oklahoma Portland Cement Company, P. G. Ekman, City Engineer, and E. H. Lucas, president of the 25,000 Club, made a trip to Byrd's Mill yesterday, and made a careful measurement of the water flowing from the spring at the present time.

Mr. Goodwin estimates the amount to be eighteen million gallons in 24 hours, which is ample to supply a city of 100,000 inhabitants. Mr. Goodwin furthermore expressed himself as pleased with the prospects of getting a water supply for the city of Ada, and intimated that the cost of laying pipe from Byrd's Mill to Ada, and installing pumping machinery for pumping a million and a half gallons of water every 24 hours, would not exceed \$75,000. This, on a \$100,000 bond issue, would leave \$25,000 for the extension of the water mains in the city.

Mr. Goodwin will make a detailed report of the entire situation to Mr. J. L. Little, mayor of the city of Ada, at an early date.

MANY TOWNS WANT POSTAL BANKS

Washington, Oct. 5.—Thus far 700 cities have made formal application for the establishment of postal savings banks and 1,300 banks have made application to be designated depositories for postal bank funds.

From Texas have come applications from thirty-eight cities, and from Oklahoma from nineteen cities for the establishment of postal banks while forty-eight Texas banks and forty-five Oklahoma banks have asked to be made depositories for postal bank funds.

School Land Appraised Too High.

Perry, Ok., Oct. 5.—The failure of twelve of the twenty-eight lessees whose tracts were advertised to be sold today by the state School Land Commission to take the lands at the appraised values, the absence of other bids, a lack of interest in the sale and the presence here of the officers of the State School Land Lessees' Association, combine to make a situation resembling overt opposition to the state selling a million and a half acres of school land appraised at more than \$15,000,000. Sixteen tracts sold today to lessees at appraised values with two exceptions. The lessees declare the appraisements are too high. Judge R. E. Wood announced tonight that the unsold lands may be leased for a year to the lessees, but that none of it will be leased for five years under the terms adopted with the university lands.

J. B. Tosh of Hobart and C. H. Hyde of Alva, president and secretary, respectively, of the state association, conferred with lessees today, and there is a hint of a meeting of the association to take decisive action in regard to the commission's appraisements.

Cotton Today.

Every gin is crowded, probably over 250 were in evidence today. Lint brings 13.55, seed cotton 4.80 and the seed \$20 per ton.

TOO MUCH STATIONERY

Our stock of box paper is too large. We want to reduce it. In order to do so we will make prices that will be an object to you. This stationery is all high-grade, and will not last long at the price we are offering it. We carry a complete line of writing tablets. Let us show you.

WE HAVE REACHED THE TURN- ING POINT.

Water is the most vital element in
every form of vegetable and animal
life, and it is just as vital in the
life and growth of a town. Ada is
now confronted by the question of
ways and means of securing a plenti-
ful supply of water and upon the
solution of the problem depends her
future. Is the town to advance or
retrograde? Until this good hour her
watchword has been progress. Her
citizens have accomplished more
than those of most towns the size
of this and now for the successful
handling of the next and most vital
question of all.

In the first place, it requires no
argument to show that our present
supply is both inadequate as to
quantity and inferior as to quality.
To make the rapid strides forward
that our position makes possible, we
must have more manufacturing en-
terprises and a larger pay roll. At
present what industry can we hope
to locate here? Nothing worthy of
the name until we have the water
with which to supply its needs. We
have never lost sight of the fact that
the Frisco may yet be induced to
consider a proposition to move its
shops here if we had enough water
to supply it. Every day prospectors
are through this country looking for
locations for new industries, but,
however well they may like our town
nothing remains but to pass on to
some other place where they can
furnish water.

The next consideration is the
health of the community. The pre-
valence of typhoid fever in various
quarters of the town every summer
is sufficient argument to convince
any one that the present supply of
drinking water is not wholesome.
Think of the children whose lives
are thus sacrificed. Think of the dis-
tress of the man with a family to
support when he has to meet such
calamities as sickness brings upon
him.

Again, we have the best normal in
the state. The water question is
likewise a vital point in its exist-
ence. With plenty of pure water, it
would in a short time have the larg-
est attendance. Until this is supplied
it will be forced to lag.

Where are we to get the water? At
Byrd's Mill, of course. There is
enough water there to furnish a city
of 100,000 people, factories and all.
It is no very stupendous undertak-
ing to pipe it to Ada, and when it
is here we have both a bountiful
supply, and also the very best wa-
ter in the state.

How much will it cost? W. G.
Goodwin, chief engineer of the wa-
terworks system of Kansas City es-
timates the total cost of piping it
to Ada at \$75,000. Even if it costs
twice that, the problem is settled
forever. The interest and sinking
fund requirements on \$100,000 will
amount to \$10,000 per year. This
would require a levy of less than
half a cent on the dollar. If there
were not a cent of revenue from the
waterworks system. As a matter of
fact, the waterworks would pay for
themselves. The number of consum-
ers would be increased until practi-
cally every house in Ada would
be supplied from the mains, and
Ada could derive some profit from
the system instead of falling short
as at present and as will continue
until the quality of water is im-
proved.

Be on hand at the meeting of to-
morrow evening, and lend your sup-
port to this movement. It is now or
never. If Ada does not get posses-
sion of the Byrd's Mill property in
a short time, others will do so, and
we may find ourselves shut com-
pletely out. We have a snap compar-
ed with what other towns have, and
now the thing to do is to snap it up.

A strong effort is being made to
harmonize the warring factions of
the democratic party in Tennessee
by nominating Bob Taylor for gov-
ernor. The only obstacle in the way
is the refusal of Taylor to make the
race. He has pulled the party out of
the hole several times before but
seems well satisfied that this time to
hold onto what he has and let some
one else pull Patterson's chestnuts
from the fire.

W. R. Hearst seems to have fall-
en into the habit of changing his
politics at every election. This time
he is supporting Roosevelt and his
state ticket in New York. As he is
a regular Jonah to any party he falls
in with, we can already see the fin-
ish of the campaign in New York.

One big advantage the editor of a
weekly paper has over a daily man
is that he has but one chance per
week to be roasted, whereas the
other comes in for it six and often
seven days.

Rev. P. R. Hicks of Shawnee, was
an Ada visitor today.

A COMMERCIAL CLUB.

We have had occasion several
times to refer to the need of a live
commercial organization for Ada. It
is our idea that we need a commer-
cial club entirely independent of the
25,000 club. We believe that we can
secure a membership of more than
100, every man willing to pay his
\$1.00 per month if he knew this
money was going to advertise Ada.
Of course such an organization
should have a competent leader and
this leader should be a well paid
secretary who would devote his en-
tire time to the work. This is the
way other towns have grown from

country villages and we can do like-
wise. Not a town in the state has
a better natural location than Ada,
but a good location does not make
a good town. Our people have shown
plenty of ability in times past when
something good was in sight, and
properly organized can do still more.
Let's get together.

Issuing Hunting Licenses.

County Clerk Kerr informs us that
he has issued thirty-four hunting
licenses to date. The quail season
opens next month and then he will
be kept busy for some days.

CALUMET
BAKING POWDER

The wonder of bak-
ing powders—Calumet.
Wonderful in its raising
powers—its uniformity,
its never failing results, its
purity.

Wonderful in its economy
It costs less than the high-price
trust brands, but it is worth as
much. It costs a trifle more than
the cheap and big can kinds—
it is worth more. But proves its
real economy in the baking.

Use CALUMET—the Modern
Baking Powder.

Ada Ice and Fuel Co.

We have placed on sale Distilled Water. This water is
the same that we use in ice making. Its absolutely pure.
With our system of distilling and filtering it is impossible
for any germs or foreign matter to get into it. If you
drink nothing but distilled water as prepared by us there
is no danger of fever. Ask your physician. For sale by
all druggists.

Why wouldn't it be a good plan to
take up with the O. C. officials the
question of putting on a passenger
train to run down from Chickasha
every morning and return in the af-
ternoon, giving the people living in
the smaller towns west of here an
opportunity to come to Ada to trade?
And we are of the opinion that a suf-
ficient number would come to make
the train a paying proposition for
the road. It would do no harm to
make an effort, anyway.

"If Jesus Should Come to Ada."

Revival at Christian Church.

Rates Suspended.

Washington, Oct. 5.—General ad-
vances of freight rates between New
Orleans and points North, West and
East, which were to become effective
November 1, have been suspended by
the Inter-State Commerce Commis-
sion, pending inquiry into the rea-
sonableness and propriety of the in-
crease. By order of the commission,
tariffs have been suspended for 120
days from Nov. 1. Meantime it is the
intention of the commission to hold
hearings on the proposed advance,
but no dates for the hearing have
been fixed. The proposed advances
are general in character, amounting
in the aggregate to approximately 10
per cent above existing rates. Ad-
vances apply to both class and com-
modity rates; affecting in fact, prac-
tically all freight-moving North or
South through river gateways.

Ban on Light-Weight Bales.

Guthrie, Ok., Oct. 5.—C. W. Han-
cock, secretary of the Oklahoma
State Cotton Exchange, has sent out
a circular, which says:

It has been brought to the notice
of the Oklahoma State Cotton Ex-
change that the practice of putting
up light-weight bales is increasing
and that it is done knowingly for
obvious purposes, I am instructed by
my directors to remind all oil mills,
ginners, merchants, buyers and oth-
ers who may be interested that every
exporter is obliged to sell his cot-
ton in accordance with the printed
contract of either the Liverpool,
Bremen, Havre or New York Cotton
Exchange and that noncompliance
with the said contracts renders the
shippers liable to severe penalties.
The rules of the Oklahoma Cotton
Exchange on this subject provide
that each lot must average in weight
500 pounds per bale within 5 per
cent.

Put into a few words this rule
means that each lot must average in
weight not less than 475 pounds per
bale and not more than 525 pounds
per bale. If, therefore, any single
invoice averages in weight below
475 pounds per bale, or over 525
pounds per bale, it is not in ac-
cordance with the contract, and such
deficiency or excess may be settled
for at the difference in value on
dates of purchase and delivery.

In order to protect buyers against
the delivery of light-weight bales,
the directors have provided a scale
of dockage for such bales, which is
as follows:

400 to 450 pounds, 50c per bale.
351 to 400 pounds, \$1 per bale.
301 to 350 pounds, \$2 per bale.
Three hundred pounds and under,
unmerchantable and the buyer to
have the right of rejection or ac-
cepting at an allowance of \$5 per
bale.

A deduction will also be made for
excessive bagging. In case of the
use of two and a half or three-
pound bagging, a dockage of five
pounds per bale will be made, and
all bales with more than six bands
will be subject to a dock of one and
a quarter for each additional band.

YOUR HAT

May Be a Stylish One, But It Makes
Trouble.

A man usually buys a hat that "in
style," but the modern hat for men has
lots to answer for.

Baldheads are growing more numer-
ous every day. Hats make ex-
cellent breeding places for the parasitic germs
which sap the life from the roots of the
hair.

When your hair begins to fall out and
your scalp is full of Dandruff it is a
sure sign that these countless germs are
busily at work.

There is but one way to overcome the
trouble and kill the germs—that way is
to apply Newbro's Herpicide to the
scalp—it will kill the germs and healthy
hair is sure to result.

THE Ada National Bank

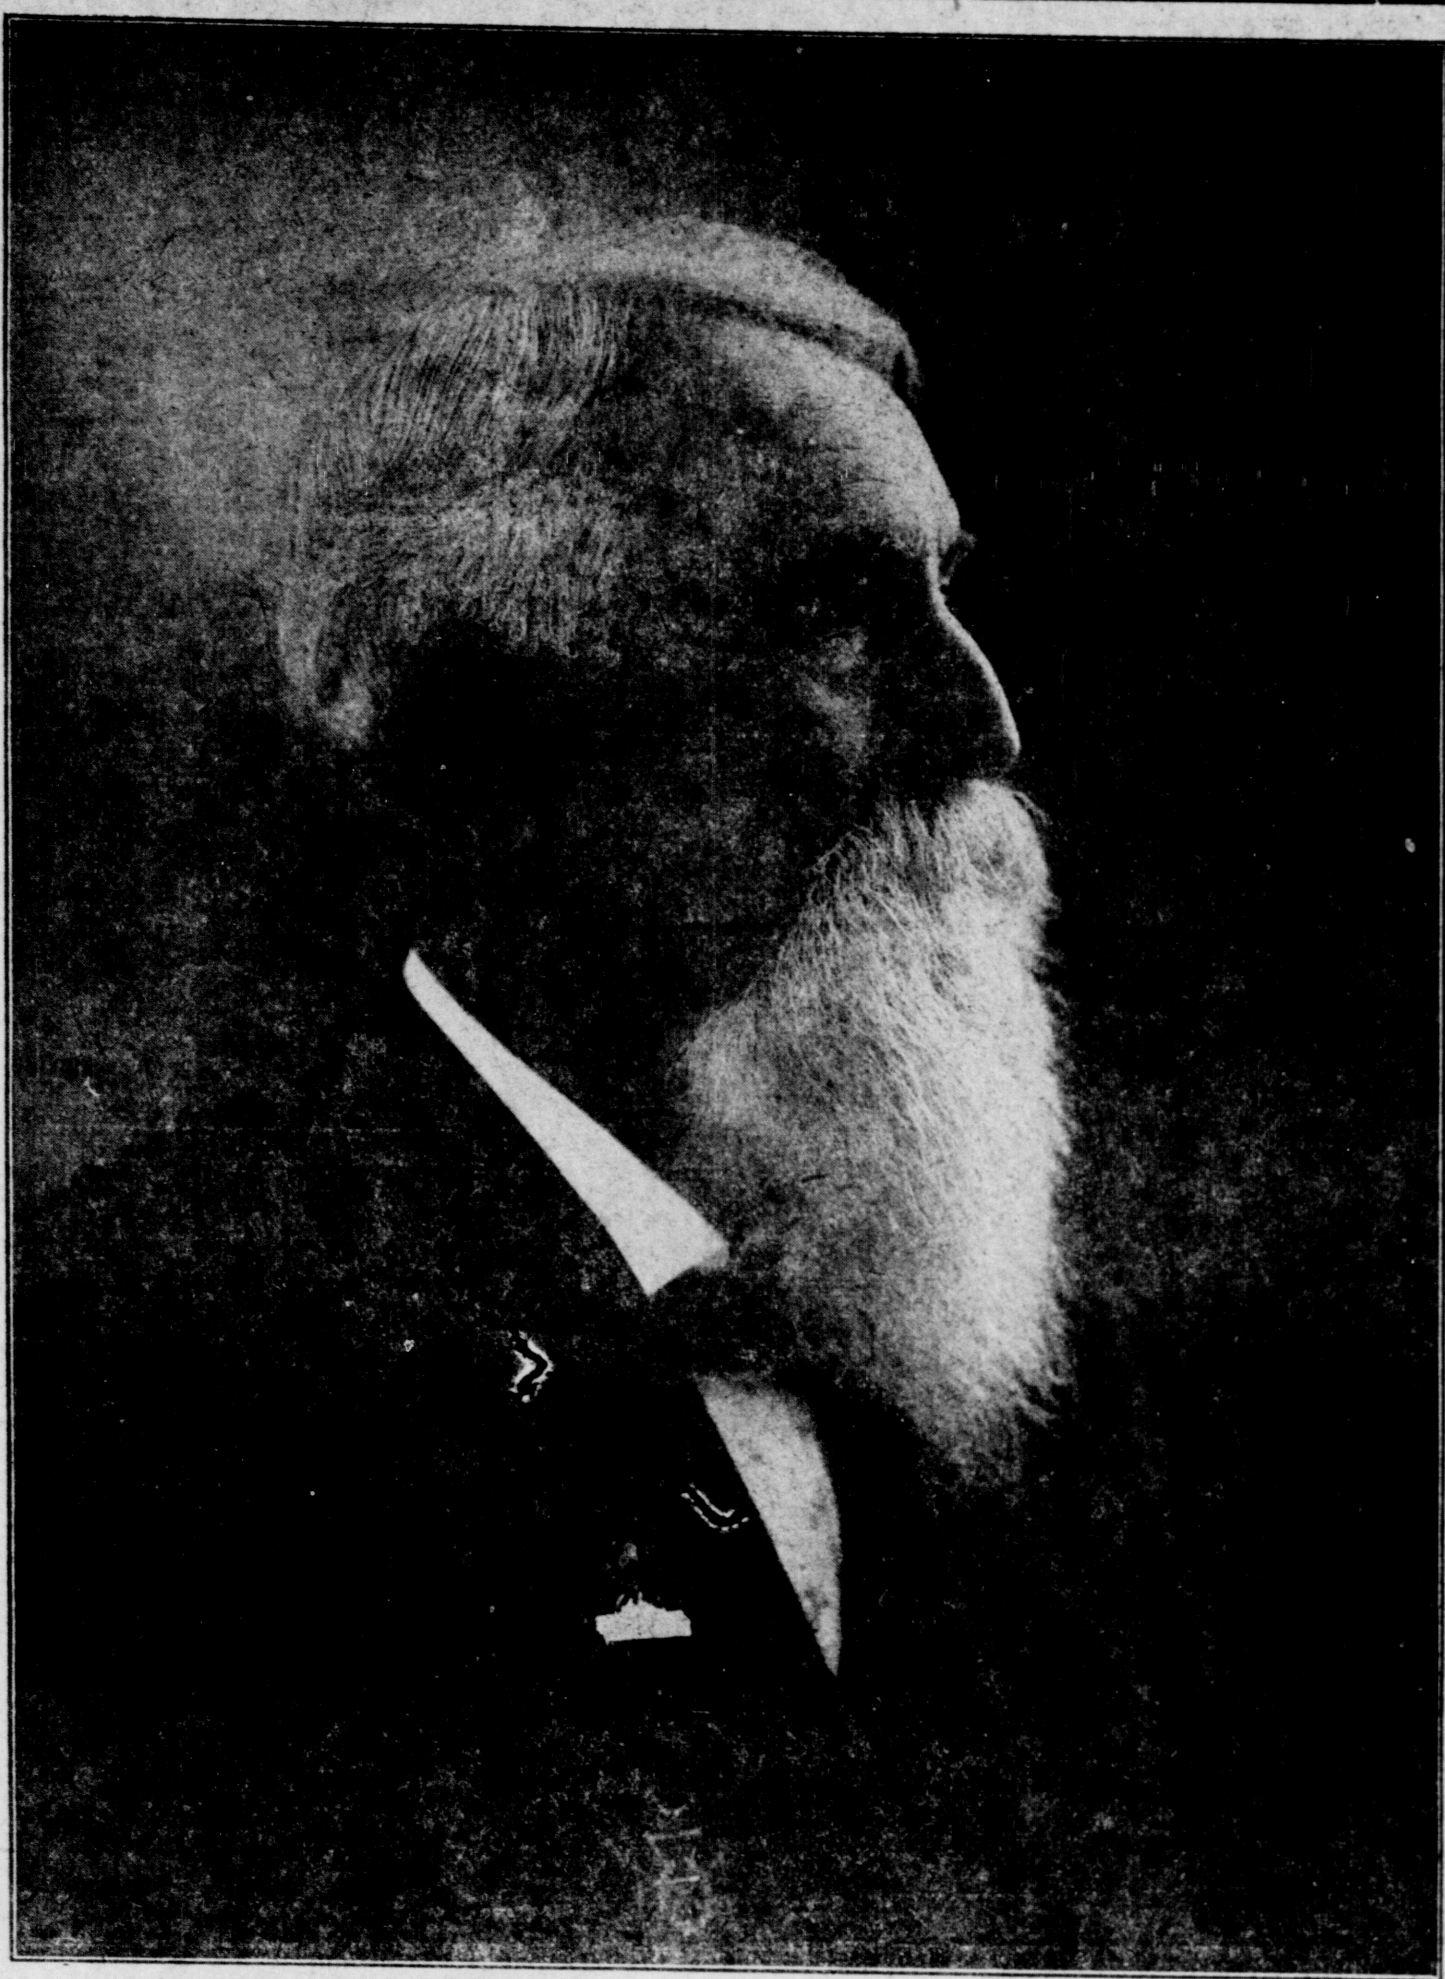

From the day of its opening,
July 23, 1900, down to the pres-
ent time the business of this
Bank has gone forward with-
out interruption.

Has accommodated more far-
mers than any Bank in the
county.

Has assisted more local en-
terprises than any other Bank
in the City.

We want your business if we
merit it.

Ada National Bank

HINTS TO FARMERS.

NOW is the time that you realize on your year's work. As you sell your cotton and corn place your money on open account in our Bank. Pay your bills by check, which makes the best kind of receipts, and avoid the worry and danger of carrying money in your pockets.

Hancock Remanded to Jail.

Joe Hancock of Wapafucka, who was arrested and brought here a few days ago on the charge of stealing a pair of pants which contained about \$2,500 worth of checks and notes, had an examining trial today. Upon default of making a thousand dollar bond, he was remanded to jail to await the November term of court.

Negroes Gambling.

Charlie Brady arrested two negroes, Sam Ward and D. Clark, last night for gambling. It was a quiet game of cards and craps. The negroes were lodged in the city jail and made their appearance before Judge C. A. Powers today.

Information From Dallas.

C. T. Angel is in receipt of a copy of the city charter under which Dallas is now governed and some valuable literature on the subject of the commission form of government. This information was secured through the courtesy of J. R. Babcock, secretary of the chamber of commerce.

STATES DRYEST TOWN ATTACKS LOCAL OPTION

Tulsa, Okla., Oct. 5.—Adopting resolutions stamping their disapproval of the local option amendment to be voted upon in November and deciding to vote unanimously against the measure, citizens of Broken Arrow, known widely as the dryest town in Oklahoma, held a mass meeting this week. One clause in the resolutions is devoted to a tirade against the Sons of Washington, which is characterized as a "mock moral association."

The Singer Sewing Machine Co.

On Main St., opposite the old Post Office stand. We sell new machines on easy monthly payments, or will give you 20 per cent of for cash. If you want to buy a good second hand machine we have them cheap. If you have a machine to sell or exchange, see us we buy and trade. We have machines to rent out at reasonable rates. At Harvey Luther's Grocery Store on Main St. Phone 295. I am in the store all day every Saturday. Please call and pay your past due note on Saturday. 26-4tw F. STRAUSBAUGH, 15414d Agent.

Reel 2—Woman's Repentance—A pathetic Pathe picture. Fine acting absorbing in interest.

Reel 3—Back Among the Old Folks—A picture that every boy and young man should see. It teaches a great moral, but more you can get from it an idea of how much you owe your dear mother.

Miss Knox will sing for us tonight. Hear her.

FEDUIMS FAIL TO READ PROF. JAMES' LETTER

New York, Oct. 5.—Fifty spiritualistic mediums have thus far presented themselves to the Metropolitan Psychological Society as candidates for the \$10,000 prize recently offered to any one who would obtain from the spirit of the late Prof. William James, the Harvard psychologist, a statement of the contents of a letter which he wrote shortly before his death to the secretary of the society. A statement from the secretary says:

"Every one of the fifty who have attempted to tell the contents of the letter has failed in every particular. Most of them begin with 'Dear Sir: Since I have been in the spirit plane,' and the expressions used are similar to those of professional mediums since the days of the Fox sisters."

"None of the letters has the slightest trace of any expression used by Prof. James in his letter. There are references to various relatives of the professor mostly inaccurate."

Pete Hanraty Gets Long Term.

The newly elected mayor and commissioners of McAlester have just taken their offices. Mayor Hanraty drew the long term, which gives him a tenure until 1914. Commissioner Schreiner's term will expire in 1913, and that of Commissioner Bond in 1912.

Dynamiting in Kansas City.

Kansas City, Mo., Oct. 4.—For a second time within a week, unknown dynamiters tonight exploded bombs under a building upon which Fogle & Son, contractors, were doing work. Several of the heavy timbers in the center of the building were torn up but none was injured.

Window lights were blown out of sashes for several blocks in different directions however. Men sleeping in hotels adjoining the damaged buildings were rolled from their beds.

No arrests have been made in the case. The police say they have a clew. Work on the building was being done on the open shop plan.

Last Sunday night a building upon which the contractors were working at 1804 Grand avenue was dynamited.

BOLD POLICE RUSH A BANK TRYING TO FIND ROBBERS

Oklahoma City, Oct. 5.—Twelve blue-coated policemen led by a gallant officer, made a mad dash from the police station shortly after noon Wednesday for the Central Reserve bank when it was reported that the bank had been blown wide open.

Visions of Jesse James and his band, the Dalton boys or Henry Sarr filled the minds of the officers. Visions of sudden glory or maybe sudden death came to them as they scrambled down the alley and out onto Main street. With their guns drawn and their eyes flashing fire they prepared to surround the banking emporium and capture the bold bandits red-handed.

"Look sharp, my men!" shouted the brave inspector. "Look sharp, here comes one."

And cut the front door walked a perfectly harmless little photographer.

He had been taking a flashNight picture of the interior of the bank.

Mrs. F. C. Kreiger was in town yesterday to execute a deed to 160 acres of land 6 miles west of town to Charley Martin. Consideration \$3,200.

"If Jesus should come to Ada."

KING DRIVEN FROM THRONE

PORTUGUESE REVOLUTION SUCCESSFUL—PRINCE PROCLAIMED.

Lisbon Oct 6.—The yacht Amelie has put out to sea with the Duke of Oporto and a companion. The Duke of Oporto is said to be the only member of the royal family.

The capital is now completely in the hands of the republicans who have formed a provisional government with Teófilo Braga as president.

The new national flag of red and green is flying over all the public buildings including the town hall. King Manuel with the queen mother and his grandmother the queen dowager Maria Pia has taken refuge at Mafra 25 miles from Lisbon.

Already the Spanish minister in full uniform has called to pay his respects to the republican leaders. It is impossible to estimate the number of those killed or wounded.

In yesterday's fighting but it is expected to reach several hundred. The city has been considerably damaged by the bombardment of the insurgent warships. The buildings occupied by the ministers around the Praça do Comercio and the Neoclassical palace were made the particular targets of the shells from the warships and today show the effects of broken walls and turrets. The tower of the church atached to the palace was demolished.

Thus far however no attack has been made upon private property and it is reported that the banks are being guarded by blue jackets. No news has been received from the provinces as communication has largely been cut off and dispatches and messages of all kinds have been suppressed.

MASS MEETING TO-MORROW NIGHT

A meeting of the citizens of Ada, Okla., is hereby called for tomorrow (Friday) evening at 8 o'clock at the 2500 Club rooms to consider the Byrd's Mill water proposition. This is the most important matter that has ever come before the citizens of Ada and a full attendance is urged.

E. H. LUCAS Pres. 2500 Club

TENNESSEE DEMOCRATS HOLDING CONVENTION

WANT BOB TAYLOR TO MAKE THE RACE FOR GOV. ERYOR.

Nashville Tenn. Oct 5.—The state convention of regular or hainomy democrats which meets here tomorrow for the purpose of nominating a candidate for governor and a candidate for state railroad commissioner for West Tennessee promises to be well attended. Large delegations have been appointed from various counties mainly composed of former followers of Gov. M. R. Patterson with a few independents but the attendance is expected to come largely from counties contiguous to Nashville.

Members Chattanooga and Knoxville however will be well represented. Many of the leaders have been in Nashville since last night and conferences are continuous. The dissolutions have all been over the candidates for governor and the platform. It appears to be the general opinion that United States Senator Robert L. Taylor will be the nominee although he is said to be anxious to have the nomination conferred upon some other man. Judge Joseph E. Jones who tried the Reel foot Lake night-riding cases, state Senator John Randolph Neal who supported Gov. Patterson in the last legislature but voted for the prohibition law, Judge M. M. Allison of Chattanooga heretofore allied with the independent faction are talked of for governor.

The convention will be called to order it is reported tonight by Mayor William O. Vertrees who was chairman of the independent state committee until the independents endorsed B. W. Hooper (rep.) for governor while Joe V. Williams permanent chairman of the convention which nominated the anti-Patterson judicial candidates in May will be temporary chairman.

All day the leaders have been at work on the platform. The only question apparently was the declaration relative to the prohibition laws. It is reported the platform will declare for local option either county unit or city unit, and the repeal of the law which prohibits distilling and brewing of intoxicants.

S. W. Allen was up from Rock yesterday.

RAILROADS APPEAL TO SUPREME COURT

CORPORATION COMMISSION INSISTS ON FIXING PHYSICAL VALUATION.

WHO HAS JURISDICTION?

Contention Is That Roads Are Not Liable to Suspending Bond.

Guthrie Oct 4.—The Santa Fe and other railroads doing business in the state have appealed to the supreme court from the action of the corporation commission in refusing to grant suspending bonds in Order 367 in which the commission ordered all steam and electric railways in the state to file with the commission alignment maps of the location of right of way and station grounds and all other statistics and figures necessary to enable the commission to make a physical valuation of the roads.

The Santa Fe sought to appeal from the order to the supreme court and the corporation commission refused to allow the road to make a suspending bond holding that the road has not right of appeal to the supreme court from an order of this kind and that the decision of the commission is final.

The commission contends that under the constitution the railroad can only appeal from orders of the corporation commission prescribing rates, charges or classification of traffic or from orders refusing to approve suspending bonds for requiring additional security and that the physical valuation order falls purely within the police and ministerial powers of the commission in the form of delegated legislative power granted by the constitution to the commission.

Attorneys for the railroads filed and argued their appeal from the order of the commission refusing to grant a suspending bond in this order. The corporation commission filed a counter motion to dismiss on the ground that the supreme court has no jurisdiction over such an appeal and the legal struggle between the railroads and the commission is now on. Both sides have been given 10 days to file briefs in the court touching the question of jurisdiction and the right of the roads to appeal.

FIRE COMPANY SAVED THE HOUSE

About 8 o'clock last evening fire was discovered in the house on 12th street just back of the Chapman hotel. When the fire company arrived flames were lapping out through the west window of the northwest room but in a very few minutes the fire was extinguished. Everything in that room was charred so badly that it was totally ruined and the walls were burned almost through. Not a great deal of damage was done to the other rooms by the fire although some things suffered from the water.

The fire is supposed to have started from a smoke to drive out mosquitoes Mrs. Brittain and her mother Mrs. Harris started smoke and while it was still burning went over to the hotel a minutes. It is thought that the wind blew a spark to a pile of at hand and from that the fire spread.

The house is the property of S. I. Tobias.

PLENTY OF CASH IN STATE TREASURY

Guthrie Okla. Oct 5.—An examination of the books and records of the office of State Treasurer Vernon E. by State Examiner and Inspector Taylor shows that there was \$1,423,838.30 in cash in the several funds October 1 of this amount \$689,211 is in the general revenue fund out of which money for taking up state war bonds is available. The last call for

state warrants was in August 1 when there was about \$750,000 in the fund and it is expected that another call will be made soon.

On October 1 119 banks were carrying tab funds totaling amount to a bank being actively in excess of \$5,000 in a year several banks carried more than this amount among them the Columbia Bank and Trust company of Oklahoma City which had \$170,000 in deposits. The Commercial Bank of Tulsa has \$60,000 in deposits. The National Bank of Bartlesville has \$117,000. Central Reserve Bank of Oklahoma City has \$33,000. Bank of Tulsa has \$10,000. Guthrie National Bank has \$28,244. Andover Bank has \$23,621.

Shawnee Paper in Hands of Receiver.

The Shawnee Herald has fallen in to the hands once more and has been placed in the hands of a receiver by the court. The Herald is a good paper and we hope its embarrassment is only temporary.

GWIN & MAYS CO.

BYRD'S MILL WATER SUPPLY

Chief Engineer of Kansas City Water Works Visits the Big Spring and Makes Estimates.

Mr. Wm. G. Goodwin, chief engineer of the water works of Kansas City, Mo., together with Alan J. Beck, president of the Oklahoma Portland Cement Company, P. G. Ikin, chief engineer and J. H. Lucas, president of the 2500 Club, made a trip to Byrd's Mill yesterday and made a careful measurement of the water flowing from the spring at the present time.

Mr. Goodwin estimates the amount to be eighteen million gallons in 24 hours which is ample to supply a city of 100,000 inhabitants. Mr. Goodwin furthermore expressed himself as pleased with the prospects of getting a water supply for the city of Ada and estimated that the cost of laying pipe from Byrd's Mill to Ada and installing pumping machinery for pumping a million and a half gallons of water every 24 hours would not exceed \$75,000. This on a \$100,000 bond issue, would leave \$25,000 for the extension of the water mains in the city.

Mr. Goodwin will make a detailed report of the entire situation to Mr. J. L. Little, mayor of the city of Ada, at an early date.

MANY TOWNS WANT POSTAL BANKS

Washington, Oct. 5.—Thus far 700 cities have made formal application for the establishment of postal savings banks and 1,300 banks have made application to be designated depositories for postal bank funds. From Texas have come applications from thirty-eight cities and from Oklahoma from nine cities for the establishment of postal banks while forty-eight Texas banks and forty-five Oklahoma banks have asked to be made depositories for postal bank funds.

School Land Appraised Too High. Perry Ok. Oct 5.—The failure of twelve of the twenty-eight tracts whose tracts were advertised to be sold today by the state School Land Commission to take the lands at the appraised values the absence of other bids a lack of interest in the sale and the presence here of the officers of the State School Land Lessees Association, combine to make a situation resembling overt opposition to the state selling a 1100 and a half acres school land appraised at more than \$17,000.00. Sixteen tracts sold today to the state at appraised value with two exceptions. The lessees of the appraisements are too high. Judge R. P. Wood announced tonight that the unsold lands may be held for a year to the lessees but the none of it will be leased for five years under the terms adopted with the university lands.

J. B. Tosh of Hobart and C. H. Hyde of Alva, president and secretary respectively, of the association, conferred with the state today and there is a limit of holding of the association to do so at a regard to the commission's appraisements.

Cotton Today.

100 lb. is crowded probably over 20 lb. in evidence today. Not much seed cotton 4.50 and the seed \$20 per ton.

TOO MUCH STATIONERY

Our stock of box paper is too large. We want to reduce it. In order to do so we will make prices that will be an object to you. This stationery is all high grade and will not last long at the price we are offering it. We carry a complete line of writing tablets. Let us show you.

WE HAVE REACHED THE TURN- ING POINT.

Water is the most vital element in
every form of vegetable and animal
life, and it is just as vital in the
life and growth of a town. Ada is
now confronted by this question of
ways and means of securing a plenti-
ful supply of water and upon the
solution of the problem depends her
future. Is the town to advance or
retrograde? Until this good hour her
watchword has been progress. Her
citizens have accomplished more
than those of most towns the size
of this and now for the successful
handling of the next and most vital
question of all.

In the first place, it requires no
argument to show that our present
supply is both inadequate as to
quantity and inferior as to quality.
To make the rapid strides forward
that our position makes possible, we
must have more manufacturing en-
terprises and a larger pay roll. At
present what industry can we hope
to locate here? Nothing worthy of
the name until we have the water
with which to supply its needs. We
have never lost sight of the fact that
the Priceco may yet be induced to
consider a proposition to move its
shops here if we had enough water
to supply it. Every day prospectors
are through this country looking for
locations for new industries, but
however well they may like our town
nothing remains but to pass on to
some other place where they can
furnish water.

The next consideration is the
health of the community. The pre-
valence of typhoid fever in various
quarters of the town every summer
is sufficient argument to convince
any one that the present supply of
drinking water is not wholesome.
Think of the children whose lives
are thus sacrificed. Think of the dis-
tress of the man with a family to
support when he has to meet such
calamities as sickness brings upon
him.

Again, we have the best normal in
the state. The water question is
likewise a vital point in its exist-
ence. With plenty of pure water, it
would in a short time have the large-
est abundance. Until this is supplied
it will be forced to lag.

Where are we to get the water? At
Byrd's Mill, of course. There is
enough water there to furnish a city
of 100,000 people, factories and all.
It is no very stupendous undertak-
ing to pipe it to Ada, and when it
is there we have both a bountiful
supply, and also the very best water
in the state.

How much will it cost? W. G.
Goodwin, chief engineer of the wa-
terworks system of Kansas City es-
timates the total cost of piping it
to Ada at \$75,000. Even if it costs
twice that, the problem is settled
forever. The interest and sinking
fund requirements on \$100,000 will
amount to \$10,000 per year. This
would require a levy of less than
half a cent on the dollar. If there
were not a cent of revenue from the
waterworks system. As a matter of
fact, the waterworks would pay for
themselves. The number of consum-
ers would be increased until prac-
tically every house in Ada would
be supplied from the mains, and
Ada could derive some profit from
the system instead of falling short
as at present and as will continue
until the quality of water is im-
proved.

Be on hand at the meeting of to-
morrow evening, and lend your sup-
port to this movement. It is now or
never. If Ada does not get posses-
sion of the Byrd's Mill property in a
short time, others will do so, and
we may find ourselves shut com-
pletely out. We have a snap compar-
ed with what other towns have, and
now the thing to do is to snap it up.

A strong effort is being made to
harmonize the warring factions of
the democratic party in Tennessee
by nominating Bob Taylor for gov-
ernor. The only obstacle in the way
is the refusal of Taylor to make the
race. He has pulled the party out of
the hole several times before but
seems well satisfied that this time to
hold onto what he has and let some
one else pull Patterson's chestnuts
from the fire.

W. R. Hearst seems to have fall-
en into the habit of changing his
politics at every election. This time
he is supporting Roosevelt and his
state ticket in New York. As he is
a regular Jonah to any party he falls
in with, we can already see the fin-
ish of the campaign in New York.

One big advantage the editor of a
weekly paper has over a daily man
is that he has but one chance per
week to be roasted, whereas the
other comes in for it six and often
seven days.

Rev. P. R. Hicks of Shawnee, was
an Ada visitor today.

A COMMERCIAL CLUB.

We have had occasion several
times to refer to the need of a live
commercial organization for Ada. It
is our idea that we need a commer-
cial club entirely independent of the
25,000 club. We believe that we can
secure a membership of more than
100, every man willing to pay his
\$1.00 per month if he knew this
money was going to advertise Ada.
Of course such an organization
should have a competent leader and
his leader should be a well paid
secretary who would devote his en-
tire time to the work. This is the
way other towns have grown from

country villages and we can do like-
wise. Not a town in the state has
a better natural location than Ada,
but a good location does not make
a good town. Our people have shown
plenty of ability in times past when
something good was in sight, and
properly organized can do still more.
Let's get together.

Issuing Hunting Licenses.

County Clerk Kerr informs us that
he has issued thirty-four hunting
licenses so far. The quail season
opens next month and then he will
be kept busy for some days.

CALUMET
BAKING POWDER

The wonder of bak-
ing powders—Calumet.
Wonderful in its raising
powers—its uniformity,
its never failing results, its
purity.

Wonderful in its economy.
It costs less than the high-price
trust brands, but it is worth as
much. It costs a trifle more than
the cheap and big can kinds—
it is worth more. But proves its
real economy in the baking.

Use CALUMET—the Modern
Baking Powder.

At all Grocers.

I Am With You Again.

To My Friends and Former Customers:
I am now with M. Bevin and will be pleased to see you,
one and all, and show you through the largest and most com-
plete stock of furniture ever brought to Ada. Mr. Levin has
been in business here for seven years and that he has always
treated his customers right is shown by the wonderful growth
of his business. Call and see me. I will give you the same
fair treatment that I always did when in business, and will take
the greatest pleasure in showing you anything you may need
in fitting up your house.
Respectfully yours,
Ada, Okla. J. F. Jackson.

Ada Ice and Fuel Co.

We have placed on sale Distilled Water. This water is
the same that we use in ice making. Its absolutely pure.
With our system of distilling and filtering it is impossible
for any germs or foreign matter to get into it. If you
drink nothing but distilled water as prepared by us there
is no danger of fever. Ask your physician. For sale by
all druggists.

Why wouldn't it be a good plan to
take up with the O. C. officials the
question of putting on a passenger
train to run down from Chickasha
every morning and return in the af-
ternoon, giving the people living in
the smaller towns west of here an
opportunity to come to Ada to trade?
And we are of the opinion that a suf-
ficient number would come to make
the train a paying proposition for
the road. It would do no harm to
make an effort, anyway.

"If Jesus Should Come to Ada."

Revival at Christian Church.

Rates Suspended.

Washington, Oct. 5.—General ad-
vances of freight rates between New
Orleans and points North, West and
East, which were to become effective
November 1, have been suspended by
the Inter-State Commerce Commis-
sion, pending inquiry into the rea-
sonableness and propriety of the in-
crease. By order of the commission,
tariffs have been suspended for 120
days from Nov. 1. Meantime it is the
intention of the commission to hold
hearings on the proposed advance,
but no dates for the hearing have
been fixed. The proposed advances
are general in character, amounting
in the aggregate to approximately 10
per cent above existing rates. Ad-
vances apply to both class and com-
modity rates; affecting in fact, prac-
tically all freight-moving North or
South through river gateways.

Run on Light-Weight Bales.

Guthrie, Ok., Oct. 5.—C. W. Han-
cock, secretary of the Oklahoma
State Cotton Exchange, has sent out
a circular, which says:

It has been brought to the notice
of the Oklahoma State Cotton Ex-
change that the practice of putting
up light-weight bales is increasing
and that it is done knowingly for
obvious purposes, I am instructed by
my directors to remind all oil mil-
liners, merchants, buyers and others
who may be interested that every
exporter is obliged to sell his cot-
ton in accordance with the printed
contract of either the Liverpool,
Bremen, Havre or New York Cotton
Exchange and that noncompliance
with the said contracts renders the
shippers liable to severe penalties.

The rules of the Oklahoma Cotton
Exchange on this subject provide
that each lot must average in weight
500 pounds per bale within 5 per
cent.

Put into a few words this rule
means that each lot must average in
weight not less than 475 pounds per
bale and not more than 525 pounds
per bale. If, therefore, any single
invoice averages in weight below
475 pounds per bale, or over 525
pounds per bale, it is not in ac-
cordance with the contract, and such
deficiency or excess may be settled
for at the difference in value on
dates of purchase and delivery.

In order to protect buyers against
the delivery of light-weight bales,
the directors have provided a scale
of dockage for such bales, which is
as follows:

400 to 450 pounds, 50c per bale.
351 to 400 pounds, \$1 per bale.
301 to 350 pounds, \$2 per bale.

Three hundred pounds and under,
unmerchantable and the buyer to
have the right of rejection or ac-
cepting at an allowance of \$5 per
bale.

A deduction will also be made for
excessive bagging. In case of the
use of two and a half or three-
pound bagging, a dockage of five
pounds per bale will be made, and
all bales with more than six bands
will be subject to a dock of one and
a quarter for each additional band.

YOUR HAT

May Be a Stylish One, But It Makes
Trouble.

A man usually buys a hat that's "in
style," but the modern hat for men has
lots to answer for.
Baldheads are growing more numer-
ous every day. Hats make excellent
breeding places for the parasitic germs
which sap the life from the roots of the
hair.
When your hair begins to fall out and
your scalp is full of dandruff it is a
sure sign that these countless germs are
busily at work.
There is but one way to overcome the
trouble and kill the germs—that way is
to apply Newbro's Herpicide to the
scalp—it will kill the germs and healthy
hair is sure to result.
Sold by leading druggists. Send 10c. in
stamps for sample to The Herpicide Co.,
Detroit, Mich.
ONE DOLLAR BOTTLES GUARANTEED

Dynastizing in Kansas City.

Kansas City, Mo., Oct. 4.—For a second time within a week unknown dynamite tonight exploded bombs under a building upon which Fogle & Son contractors were doing work. Several of the heavy timbers in the center of the building were torn up but none was injured.

Window lights were blown out of sashes for several blocks in different directions however. Men sleeping in beds adjoining the damaged buildings were rolled from their beds.

No arrests have been made in the case. The police say they have a crew working on the open shop plan.

Last Sunday night a building upon which the contractors were working at 1804 Grand avenue was dynamited.

FEDERUS FAIL TO READ PROF. JAMES' LETTER

New York Oct. 4.—Fifty spiritualistic mediums have thus far presented themselves to the Metropolitan Psychological Society as candidates for the \$10,000 prize recently offered to any one who would obtain from the spirit of the late Prof. William James the Harvard psychologist a statement of the contents of a letter which he wrote shortly before his death to the secretary of the society. A statement from the secretary says:

Every one of the fifty who have attempted to tell the contents of the letter has failed in every particular. Most of them begin with Dear Sir. Since I have been in the spirit plane, and the expressions used are similar to those of professional mediums since the days of the Fox sisters.

None of the letters has the slightest trace of any expression used by Prof. James in his letter. There are references to various relatives of the professor mostly inaccurate.

Pete Hanratty Gets Long Term.

The newly elected mayor and commissioners of McAlester have just taken their offices. Mayor Hanratty drew the long term which gives him a tenure until 1914. Commissioner Schreiner's term will expire in 1913, and that of Commissioner Bond in 1912.

BOLD POLICE RUSH A BANK TRYING TO FIND ROBBERS

Oklahoma City, Oct. 5.—Twelve blue-coated policemen led by a gallant officer, made a mad dash from the police station shortly after noon Wednesday for the Central Reserve bank when it was reported that the bank had been blown wide open.

Visions of Jesse James and his band the Dalton boys or Henry Starr filled the minds of the officers. Visions of sudden glory or maybe sudden death came to them as they scrambled down the alley and out onto Main street. With their guns drawn and their eyes flashing fire they prepared to surround the banking emporium and capture the bold bandits red-headed.

"Look sharp my men!" shouted the brave inspector "Look sharp, here comes one."

And but the front door walked a perfectly harmless little photographer.

He had been taking a flash-light picture of the interior of the bank.

Mrs. F. C. Kreiger was in town yesterday to execute a deed to 160 acres of land 6 miles west of town to the Charley Martin Consideration \$3200

RACING PROGRAM AT STATE FAIR

Much Interest Already Manifested in Coming Meeting.

CONTESTS ARE VARIED.

Trotters and Pacers, Automobiles, Motorcycles and Aeroplanes Will Appear in Sensational Events.

Dallas, August 1910—Racing features at the twenty-fifth annual meeting of the State Fair of Texas promise to be sensational. The management this year offers in purses and stakes in the horse automobile, motorcycle and tournament events something like \$50,000. There will be ten days of horse racing and three days of automobile contests. In other words there will be something of interest doing at the grandstand every week day during the fair. The racing program will be featured by new attractions secured by the fair management this year. Great as all will be the contests popular to all Southwestern before the Civil War, when the planters' civilization was in its prime.

Much interest is already manifested for the coming race meeting. Entries for the eight stake harness events which closed July 1, averaged over thirty-five to the race. This showing is much better than last year. In all probability the races will have to be run in sections owing to the heavy entries in all classes.

State Fair Futurities.
The two futurities—trotting and pacing—promise to be popular with turf enthusiasts as there is the likelihood of a youngster entering that ever left the breeding farms of Texas. All the aristocratic lineage families of Texas are represented in the try outs each morning the two futurities are being watched with interest. All are making splendid showings and each event promises to be contested in a manner never seen at the local track.

The State Fair meeting opens just at the close of the great racing circuits in the North. Strings of American turkeys and quans en route to California and Florida stop over in the city. Already stars have been engaged by famous turfmen. The racing program promises to be sensational. New records for the mile track will be all probability be made.

Fast Pacers Coming

An interesting feature of the coming meeting will be the races between two of the fastest pacers in the world. To come from the home of Dan Patch show what pacers can do. The four will not only go in races but will have a good team race—Hedgecock, P. and Lady Maud against P. and George Gano. The race is between these four are respectively 2:02.2, 2:02.4, 2:02.5 and 2:02.6.

As in the past the speed of the race will be kept up to its high standard from the standpoint of running horses and the very best race meet of the year in this respect will be given in front of the grandstand. As is well known the Texas running horses are the greatest in the world. Many of the features of the Grand and Great Western circuits have been captured by them this year. Local turfmen predict that the showing this year of the Texas thoroughbred will be sensational.

Automobile Events

Assistant Secretary Ben E. Cabell is getting the harness track in readiness for the automobile and motorcycle contests. In order that the cars can make a record of a mile in less than a minute the turns of the mile track are being banked to keep the cars from skidding through the fence. There will be five to six automobile events and two to three motorcycle races each day. Great automobile manufacturers are concerned will send their crack crews to participate. Some of the star drivers of the automobile world Barney Oldfield, DeWitt and others are to be here. Novelty races etc. will feature each program.

Monday, October 24, Tuesday, October 25, and Wednesday, October 26 are the dates for the State Fair tournament. Fifteen hundred dollars in prizes will be distributed. The tournament is given to prove that the age of chivalry has not passed forever and that there are Texas horsemen as expert in equestrianship and with the lance as a Goffrey de Prebigny or a Bayard. The tournament was very popular in the South before the war and before the age of commercialism had been ushered in its revival by the polo player, which has been made by

Gollmar Bros. Circus Coming With Many Novelties.

The shake-up to the nerves the rag time beat of your heart the lead that some one will be hurt with the accompanying apprehension that they may not all of the excitement of the Gollmar Brothers Circus coming here Wednesday October 19th. Credit must be given to the professionals who shake die for their lives with fortune at every performance.

The Gollmar Brothers Circus is high Hygiene. It is a true American circus for American kids from six to sixty. One of the big acts is the original Moro family. What this wonderful family does looks easy. Suppose you try it and new-papers will write a story about it with a diagram showing the place where your body struck.

Another of the best ever acts is the leaping contest. Fifty leapers take part. Charles LaRue the champion does a double somersault over elephants camels and horses. Marie Marvella riding Rudeys and many other big acts are presented in many new riding stunts.

You will see the Ben Hur herd of stallions and the Black Hussar horses perform. They prove what a perfect world this would be if all men had as much intelligence as horses. You will see elephants waltz, ester, play hide-and-seek and undress and go to bed like people. You will see dog shows and mule shows and countless clowns. The Gollmar Brothers Circus is a great show presenting magnificent good old barbarous sport that makes you happy in feeling that civilization has not eliminated all the traits your grand-dads of the stone age left you as a message.

AD'S PEROXIDE CREAM

For those particular people who desire a beautiful complexion and who want to keep the skin at its best all the time—keep it clear, flexible, smooth and give it the glow of health—there is nothing as good as A. D. S. Peroxide Cream, because it contains a small quantity of Hydrogen Peroxide, the great anti-septic healing and cleansing agent. Its action upon a red, blotched, pimply, scaly, unsightly skin is very pronounced.

When used as a massage it has a tendency to eradicate wrinkles and to nourish the tissues. It is a mild bleach—perfectly harmless and will not grow hair.

This is one of the leading preparations made by the American Drugists Syndicate, which is composed of 12,000 responsible druggists and it is but one of the famous A. D. S. Peroxide Family.

The others—equally as good, equally as beneficial and just as popular—are A. D. S. Peroxide Tooth Powder, which whitens, cleanses and preserves the teeth. A. D. S. Peroxide Tooth Paste for the same purpose put up in a different form. A. D. S. Peroxide is a very superior soap because it cleans as well as cleanses. A. D. S. Peroxide Foot Powder for tired aching burning feet, and last but not least, A. D. S. Peroxide of Hydrogen, the great disinfectant and germicide now being used in so many homes. All of these A. D. S. preparations can be obtained at any A. D. S. drug store.

Look for this Sign in the Druggist's Window
